

Dear Hiring Manager,

I am applying for the position in the Quantitative Trader Programme. A brief resume is included with an overview of my skill set and research experience. Based on the job description I feel that this position looks like an interesting and novel use of my analytical skills and would be a great place for me to begin my nonacademic career.

If you have any questions about my resume please feel free to reach out to me via email or call me directly.

Best,

Jason Barkeloo
